 **Message from
Dr. Manisha Jindal, Principal (Patron)**

I strongly believe that education is a blend of academic excellence & creativity & as a Principal of Medical College my motto is to encourage and empower our Medical professionals to grow as a strong, reflective and humble individual with discerning minds, prepared to make a mark in all the spheres of life. Effective teaching is about involving medical professionals not only in their learning journey, it is also about talking to them about their well-being, encouraging them and helping them develop their skills simultaneously.
